Full of passion, warmth and lots of salsa music, Jennifer Lopez and her husband Marc Anthony star in this prime production of *El Cantante*. Directed by Leon Ichaso, *El Canantante* tells the story, life and fall of the incomparable salsa king Hector Lavo, who was famously nicknamed *La Voz*, which means voice. The film *El Cantante* develops on the real path of a good and talented person, who bad decisions and bad company negatively affected his own life and future, plunging into the abyss of drugs. *El Cantante* takes the audience through the time salsa music was introduced to the United States by the incomparable Hector Lavo for the year 1975. With masterful performance as Puchi, Jennifer Lopez conducts a successful characterization of someone who was the wife of Mr. Lavoe, a woman with a brave and strong personality who was forever dedicated to the best and most famous salsa singer in music history. Depicting the legend of Hector Lavo, Marc Anthony in the title role, which fell as a glove on his hand, gives an explosive and real spectacle of life to who was the greatest salsa singer of all time. With an accurate imitation of voice, movements and personality, Anthony earned a buzz for more great fans, presenting Hector Lavo with dignity in the masterpiece film *El Cantante*. Director Leon Ichaso offered to give the most possible accurate story in the film, creating crude scenes of drug abuse, obscene slang and offensive language, and sometimes scenes of sexual content. In Hector Lavo's difficult battle to save him from the world by which he was drowning, the film successfully presents a stunning rise to fame as a young singer and a rapid fall to the hell of drugs before his death from AIDS. *El Cantante* tells the story of love, music, success and power, it tells the story of a Puerto Rican who came to New York in search of a dream, *El Cantante* fills theaters and audiences with tears and delusional applause, as Fania All Star Band music plays, and everyone hears the impeccable voice of good friend Willie Colon. With the strong voice of the proud and strong Puchi, who tells from a solitary chair the sad story of who in life was the top indicator of salsa music, and as she said: The more he rose as an artist, the more he drowns as a man Hector Lavo *El Cantante* lost his life amid drugs, alcohol and depression. *El Cantante* is a story, drama, music film that was released in 2007. It received mostly bad reviews from critics and viewers who gave it an IMDb score of 5.5 and MetaScore 46. *El Cantante* is available for viewing and streaming, downloading, on-demand purchases in Amazon Prime Germany, Amazon, Vudu, Google Play, iTunes, YouTube VOD online. In the early 1960s, Hector came to New York from Ponce, Puerto Rico. Success comes quickly. The more he grew up as an artist, Puci says, the more he went down as a person. It's a story about talent - creating salsa with Willie Colon, with Fania All Stars, and as a soloist - and a story of decay - fueled by drugs, alcohol, partying, and depression. Puci's voice - proud and grouchy - dominates backstage, as Hector does on.
